- Eduoard Frossard suggests that the ANS collect modern imitations (or counterfeits) of rare Colonial coins, for the object of comparison with the real coins [Jun. 6]

- Though Kunz is in favor, Drowne and the Exec. Ctte. are against the idea of having Eckels, as Comptroller of the Currency, come to lecture at the ANS, as he might be very disappointed with a turnout of 20 or less as an audience [Nov. 25]

Dear Mr. Drowne:--I am afraid that I will be unable to attend the meeting on the 20th of January. I had hoped that on that evening not only to read a report, but to have the electrotypes of the two prize designs which Mr. Jagers and Mr. Ross will present to the Society's collection.

Hoping that everything is going nicely,

Believe me,

My dear Sir:-

I was one of the founders of the American Numismatic Society, but as it seemed to me in a short while to be used for the benefit of the Coin dealers, I withdrew from it. Gentlemen of science and ability afterward took charge of it, shaped it to its proper objects and aims, and have given it high standing among learned associations. An honorary membership of a society which has thus distinguished itself, especially when unsolicited, is a matter of great satisfaction to its recipient, and I beg you to convey to the Society you represent, my acceptance of the membership and my profound thanks for the honor conferred.

With my warmest wishes for the continued success of the Society,
I remain,

Very truly

Henry R. Drowne, Esq.,

CORRESPONDING SECRETARY of the AMERICAN NUMISMATIC and
ARCHAEOLOGICAL SOCIETY.

Dear Sir:

I learn that a prominent member of your society has nominated as a corresponding member of the same, Reverend William Copley Winslow, D.D., LL.D., D.C.L., Ph D., L.H.D., Sc.D., Hon. F.R.A.S., of Boston, Massachusetts, the archaeologist and antiquarian, who is Hon. Fellow of the Royal Archaeological Institute, Hon. Member of the British Archaeological Association, and of various European and Canadian Societies.

The London Times states that, through him, as its Vice President and Honorary Secretary, the Egypt Exploration Fund has just presented to the Metropolitan Museum some objects from the site of the temple of Queen Hatasu at Thebes.

It seems to me that it is eminently fitting for your Society to recognize his archaeological labors, and that he would prove a very useful member of the same.

Doubtless he might address your Society on some theme appropriate to its objects and aims.

He is I see, an Associate Editor of the American Antiquarian Magazine.

If I remember rightly, Dr. Winslow received L.H. D. at the

Centennial of Columbia College with Prof. J. H. Hall, for his achievements in archaeology.

But it seems almost superfluous for me to further present so strong a case as this to your favorable consideration.

I have ventured to make these suggestions as one deeply interested in the study of History and Archaeology and a member of one of the Historical Societies of Massachusetts.

Believe me to remain,

Very respectfully yours,

Dear Mr. Drowne:—Your estimate favor of the City
inst. duly received; also the list of coins exhibited
at the exhibition of the Historical Scriptura Society
and American Numismatic Society of New York City. I
thank you very much for the same, and will have it all in
a report, as you suggest. My only delay has been to
get an electrotype from Mr. Ross of New York; I have
one of Mr. Dennis', and should have had to have presented
both at the same time. By the way, will you kindly in-
form the proper authorities that I believe that some
work which I started at the World's Fair was

fifty-six or fifty-seven modern "American" books from
one of the leading publishers there. They are now at the
Lieber house, and I have ordered them to be sent to the
American Scientific Society's rooms so that there is to
be no delay, and I am all quite sure there will
be no invoice for them.

Dear Sir:-

I should be obliged if you would let me know whether it is possible, under your regulations, to send to my care, for the Official Library of the Minister of Justice, a set of ^{the} "Proceedings" and "Bulletins" of the American Numismatic & Archaeological Society.

These would form a valuable addition to our Library, and would be very useful for purposes of reference.

I should be pleased at any time to secure for you any of the publications of the Canadian Government which you might desire for the use of the members of your Society.

Dear Sir:-

I have the honor to request that this library may be furnished with a copy of each of the printed Annual Reports for the years 1894-95. Would you also be kind enough to let us know if the First to the Nineteenth, inclusive, Annual Reports are printed. If they are, we would be pleased to receive a copy of each of these proceedings as well, and of such other documents as the Society may issue. The favor would be highly appreciated.

I would also request that this library may be placed on the list to receive future Transactions of your Society as they appear.

Very respectfully,

John S. Billings

New York.

My dear Sir:-

Since my former visit
since, the University of Texas was
given by Mr. S. M. Johnson of New
York City a collection of nearly
3500 ancient coins and about
2000 medals covering the period
from the 16th century to the present.
There is no expert in numismatics
connected with the University, and
the collection has been placed
in my charge. I am trying under
many difficulties to make a rough
catalogue of the medals. This is
simply because the University has not
money to employ an expert.

I find myself in great need
of catalogues of other collections.

UNIVERSITY OF TEXAS

especially English, French, German,
Spanish, and American, for pur-
poses of comparison. Some help
has been obtained from catalogues
procured from the British Museum
and the United States Mint. Will
you tell me what the best French,
German, and Spanish collections
are, so that I can procure their
catalogues?

Any suggestion you could offer
relative to this work would be greatly
appreciated.

Very truly yours,

George D. Garrison.

Dear Mr. Relden:--I herewith enclose a printed item which I think it might be well to incorporate in the Daniel Parish, Jr., resolution, unless Mr. Drowne or yourself can say it better. It occurred to me that after we had thought over our suggestions we could put in an evening together and finish the resolutions. I enclose a statement of what I think would be desirable in the report of the Joint Committee in regard to the United States coinage.

First, the history of the appointment of the Committee from the various Societies. Second, the minutes of the meetings. Third, the correspondence with the authorities of the United States Mint. Fourth, the correspondence with the Directors of foreign mints and others, giving an account of the methods used by foreign countries in creating a new coinage. Fifth, three or four plates of what the Society may consider the best types of American coinage. This will require altogether some twenty or thirty pages, of the size of the American Numismatic Society's publications; and I believe that if the Society can publish it at once, a part, if not all of the expense could be raised without the aid of the Society. It is quite urgent that something should be done at once, because if the Numismatic Society prefers not to publish it, I am quite sure that the National Sculpture Society would readily do so. But as the suggestion came from the Numismatic Society it had better go there first.

Very Truly Yours,

Wm. H. King

Dear Mr. Golder: I wrote Mr. Hibbard
of Washington, enquiring whether he
could give a lecture from the numis-
tical standpoint on coinage, and he
writes me as follows: "I am in receipt
of your favor of the 13th inst. A lec-
ture on Coinage would not be at all in
my line. I think, however, Mr. Eckels,
the Comptroller of the Currency, would
give you a lecture next Autumn, and I

think it would be one of great interest. He lectures for us next week Friday on the Geographical history of Currency. If that is as interesting as I think it will be I will write you about it."

Mr. Hibbard is president of the National Geographical Society, and a man who knows much about history, and commerce, as well as classical antiquities.

Report of the Commission
May 11, 1896

To the American Numismatic & Archaeological Society:-

Gentlemen,

Your librarian, in this
is first report, desires to acknowledge the kind assistance which he has had in the performance of his duties from members of the Society, and, especially, from Mr. Bauman L. Belden, the former librarian. A library of the extent and value of the one owned by this Society calls for the attentive care of an experienced librarian. Time is needed for acquiring the requisite experience, and, in the meantime, I hope you will bear with my shortcomings.

Since the annual meeting in March last, there have been 67 accessions to the library, consisting of 11 bound volumes, 8 pamphlets, 21 periodicals and 26 catalogues. Of especial note among the bound volumes is one entitled "An Olla Podrida, or Scraps Numismatic, Antiquarian and Literary", by Richard Sainthill, - a rare and valuable work, in two volumes, presented to the library by Mr. Daniel Parish Jr.

The following is a complete list of the donors:-

Dear Mr. Belden:-

I saw Mr. J. Kennedy Told yesterday and have made it all right in regard to his becoming a member of the Numismatic Society. He stated that if you had mentioned in your notification that he had been proposed for membership by me, that he would have recollected his promise.

I would suggest that in the future, that when you notify a member of his election you state by whom he was proposed for membership. I think it doubtful whether I shall go to the room to-morrow night, as I shall be at Creedmoor all day and will doubtless be fatigued but I shall surely be there Thursday of next week. Meanwhile I think it would be better to say nothing more to Mr. Told.

Sincerely yours,

My dear Sir,

I enclose 2

very curious counterfeits. One
is of 1896 Orleans La. half-
Dollar, the other of a \$2 gold, struck in silver.

I would suggest that
for the object of comparison, etc,
it might be desirable for our
Society to collect modern imita-
tions of our Colonial Coins, also
copies & counterfeits. A full
representation of these might
become at times extremely useful.

To members of the Society
and to individuals desiring
correct information on the
subject—

Very respectfully

Mr. Bauman L. Belden.

New York City;

My dear sir:-

Yours of May 23 was received several days ago. I am greatly obliged to yourself and to Mr. Sturgis, and I thank you both most heartily.

The Swenson collection, i.e., the one in possession of this University, is an interesting and, I am sure, a highly valuable one; but I know too little about coins and medals to speak with confidence, and I am too much occupied with my own special work to acquire anything like an expert knowledge of them.

Our coins are already catalogued. We have verified only about one third of the part of the collection since it was given us.

only a few copies of the catalogue
are left, and I hesitate to part with
any of them at present, but if you
can borrow it I shall be glad to send
you one to examine and return with
any remarks you may consider worth
making.

This collection of coins, by the way,
was bought by Mr. Swanson of a Swedish
dealer, who had it from the estate of
Baron Stjernstedt.

The medals we are seeking to catalogue
under difficulties which only men like
yourself can appreciate. The collection
numbers 1844, mainly American, English,
French, Spanish, Swedish, German, and
Russian.

Many thanks for your bibliographical
help and your offer to examine rubbings.
It is quite likely that we shall send you some
soon.

With sincere thanks for your kind suggestions,
most sincerely yours,

My Dear Sir:

I am almost
ashamed to answer your kind favor
of July 2 of this late day. The reason
of no answer is the letter was
mislaid and all my manuscripts
letters are put in one place my
not finding it here did not think
I had answered it. The other day I
came across it and then it is
made answer for my not answer.
The note was very acceptable and
I must have lost it. I am sending
this I had you to the late day
I am nothing else to exchange

at present.

I have a notice for the Society.
I have now two letters in the mail.
If it is not too late I will send
it with a short account of it.
and then record it. The same
time and place that I was unable
to secure a copy of.

I notice that after a silence of six
months a Corresponding Member
is supposed to be dropped. Will you
kindly tell me if I am still in
good standing or not.

Yours ever

Referring to the Oswego Centennial & the medal connected with it, I think that you will be interested in having for your files a copy of the July No. of the magazine "Spirit of '76", published at No 14 Lafayette Place, New York City in vol.

It has an illustrated article which gives better showing of the subject than anything yet published.

My dear Sir

I regret that I shall be
unable to attend the meeting of
the Executive Committee this
evening. Agreeable to the
committee it would seem well
to hold a "Special Meeting" of
the Society at which resolutions
could be passed and an
obituary paper, carefully pre-
pared, could then be read.
Certainly no one has done more
for the Society than Mr Wright.
I should also heartily approve
of sending out a notice

decide to send any floral
tribute I shall be pleased
to be counted in for my share

My dear Selden

I was very sorry to learn of Mr Wrights death and do not see how the Society will find as painstaking ^{an} faithful an officer to replace him -

I have no data whatever to write his Historiographer notice, possibly if you were to send one of the Blanks to his wife she could at least fill up part. One thing sure and that is I will have to rely on Mr Droune as yourself furnishing me particulars

Dear Mr. Drowne:--Your favor of the 24th inst. at hand. In
reply to inform you that ^{with a} Mr. Nichols is heartily in favor of the paper. We could make
it a point to turn out a better audience anyway, and we could
promise the publication of the paper.

Note--The Committee have not thought it advisable to invite Mr. Eckels to give
it the complete history of the currency - as
we fear he would come with great
expectations and be greatly disappointed
at an audience of 20 or less and that
his report would be lost and ^{in the} ~~in the~~ Society

Very truly yours,

Dear Sir:

Your polite favor requests

that I should co-operate with your committee
in securing a series of papers in English
applicable to the culture of the Society (American)
the paper required. Much as I would like to
comply with the desire, my many oc-
cupations would forbid—more so if I considered
the necessity of meeting my other obligations.

With thanks in the conclusion

Dear Mr. Belden:

On Thursday

last Mr. Drowne called my attention to the paper Dr. Storrs sent the Society some time ago & the letter which he had recently sent inquiring about it.

It is a manifest injustice to Dr. Storrs to keep the paper any longer.

As it has never been read before the Society it could not be printed as part of the Proceedings & it is only proper that you, as Secretary should return it to the Doctor with regrets that we could not avail ourselves of it.

Sincerely yours

My dear Sir,

For a year past I have been understanding to write you regarding what may seem a very insignificant tariff question, and now that the general subject is under consideration in Washington I will delay no longer. In this country there are many amateur numismatists - you yourself have been of their number. A portion of these collectors are satisfied with what they can obtain within our own territory. Others are not. Whenever any of them are engaged, as a purely scientific research, in the study of any given series, it becomes absolutely necessary to draw material from abroad. For instance, for more than ten years I have been preparing a work upon the medals and tokens in any way connected with my own profession (physicians, hospitals, epidemics, medical societies and colleges, pharmacists, dentists, irregular practitioners, etc.), and since January, 1893, have continuously published instalments in the *American Journal of Numismatics*. At present there is a duty of some 35 per cent. upon medals. When these are, for their age or rarity, of very high cost, this additional burden is an onerous one, and in many cases must absolutely prohibit studies of importance that would otherwise be made.

I therefore earnestly request that you with interest yourself in this matter, and if possible procure the removal of the duty in this matter.

If it were stipulated that bona fide numismatists (not dealers), members of your pleasure of recognized numismatic or historical societies, can import free of duty a single specimen of any medal, it might cover the point desired. It might be added that such medal was not for sale.

Trusting that you are well -

Sincerely yours

My dear Sir,

I append copy of a letter I have sent to U. S. Senator
Hethcote. The matter is one that, I think, will commend itself to the
attention of the Society whose action you direct. One reason
that there is so much more scientific activity among Europeans
than American numismatists, is that they have access, in the
absence of trade restrictions, to a greater abundance of working
material -

Sincerely yours
